

High School Curriculum

Newberg High School serves all students in grades 9-12 in the Newberg School District. Students select classes from a traditional curriculum designed to support college readiness. Required courses in English, mathematics, science, and social studies are supplemented by a broad range of electives. Choices include: second language, health, physical education, arts or professional-technical. Advanced placement classes are available for more intensive study. A variety of specialists provide learning support.

Student extracurricular programs include activities, drama, music, student leadership and clubs.
