The Ethical Educator

Oregon Administrative Rules

584-020-0035

The ethical educator is a person who accepts the requirements of membership in the teaching profession and acts at all times in ethical ways. In so doing the ethical educator considers the needs of the students, the district, and the profession.

(1) The ethical educator, in fulfilling obligations to the student, will:

(a) Keep the confidence entrusted in the profession as it relates to confidential information concerning a student and the student's family;
(b) Refrain from exploiting professional relationships with any student for personal gain, or in support of persons or issues; and
(c) Maintain an appropriate professional student-teacher relationship by:
   (A) Not demonstrating or expressing professionally inappropriate interest in a student's personal life;
   (B) Not accepting or giving or exchanging romantic or overly personal gifts or notes with a student;
   (C) Reporting to the educator's supervisor if the educator has reason to believe a student is or may be becoming romantically attached to the educator; and
   (D) Honoring appropriate adult boundaries with students in conduct and conversations at all times.

(2) The ethical educator, in fulfilling obligations to the district, will:

(a) Apply for, accept, offer, or assign a position of responsibility only on the basis of professional qualifications, and will adhere to the conditions of a contract or the terms of the appointment;
(b) Conduct professional business, including grievances, through established lawful and reasonable procedures;
(c) Strive for continued improvement and professional growth;
(d) Accept no gratuities or gifts of significance that could influence judgment in the exercise of professional duties; and
(e) Not use the district's or school's name, property, or resources for non-educational benefit or purposes without approval of the educator's supervisor or the appointing authority.

(3) The ethical educator, in fulfilling obligations to the profession, will:

(a) Maintain the dignity of the profession by respecting and obeying the law, exemplifying personal integrity and honesty;
(b) Extend equal treatment to all members of the profession in the exercise of their professional rights and responsibilities; and
(c) Respond to requests for evaluation of colleagues and keep such information confidential as appropriate.
Outside Employment/Honoraria Guidelines

All district employees have been hired for the primary goal of furthering the district’s mission to educate all students. It is the district’s expectation that staff act in performance of their professional activities with that goal in mind.

It is a violation of the Oregon Governmental Standards and Practices Law (O.R.S. 244.020 through 244.040) for public employees to receive remuneration for other duties during the time they are also being paid as public employees. In other words, one cannot “double dip” pay while on the public’s time. For instance, an automotive mechanics teacher is prohibited from doing auto “tune-ups” for pay for other teachers during the school day. Another instance would be a custodian who is paid by a cleaning supply company for demonstrating products on school time.

Newberg School District has an excellent reputation for many of its programs. It is reasonable, even desirable, that our staff be asked to lend its expertise in performance contest adjudication. Approval to attend such activities during the school day is totally discretionary on the District’s part. The availability of substitutes and budget constraints are but two considerations. However, the District has developed the following guidelines and procedures for dealing with these requests.

1. Permission to attend must be sought from the building principal if these extra duties require any absence from school. If it is an evening, non-contract day or weekend event, there are no constraints on the ability of our staff to participate.

2. Permission will be granted only upon the principal’s receipt of a written invitation and/or a published schedule of activities from the sponsoring organization or school.

3. If there is an honorarium or pay attached to the activity for which permission is sought, it will be subject to the following restrictions:
   a) If the activity extends for a period of time concurrent to the regular workday, then the pay or honorarium must be submitted to the District (as we do now with pay for jury duty) or, if the employee wishes to keep the honorarium or pay, then he/she must take the day as unpaid. Again, the ability to take such leave is at the District’s discretion.
   b) If the activity including travel time extends to a significant degree beyond the workday, then the employee is allowed to keep the pay or honorarium. Mileage, meals, and lodging expenses, if paid by the sponsoring organization, are not reportable as long as they are reasonable and customary.

The intent of these guidelines and procedures is to protect our employees from putting themselves at risk of violating state law by using their positions for private gain. They are not meant to stop worthwhile professional activities which benefit our staff, students, and programs.
Any district employee who has reasonable cause or reasonable suspicion to believe that any child with whom he/she has come in contact has suffered abuse or neglect, as defined in state law, or that any adult with whom he/she is in contact has abused a child, will immediately notify the Oregon Department of Human Services or the local law enforcement agency. The district employee shall also immediately inform his/her supervisor, principal or superintendent.

Abuse of a child by district employees or by students shall not be tolerated. All district employees are subject to this policy and the accompanying administrative regulation. If a district employee is a suspected abuser, reporting requirements remain the same. The district shall designate the superintendent/designee to receive reports of abuse of a child by district employees and specify the procedures to be followed upon receipt of an abuse report. The district will post in each school building the name and contact information of the person designated to receive child abuse reports.

A substantiated report of abuse of a child by an employee shall be documented in the employee’s personnel file. A substantiated report of abuse of a child by a student shall be documented in the student’s education record.

Upon request, the district shall provide records of investigations of suspected abuse of a child by a district employee or former district employee to law enforcement, Oregon Department of Human Services or Teachers Standards and Practices Commission.

Any district employee participating in good faith in the making of a report, pursuant to this policy and Oregon law and who has reasonable grounds for the making thereof, shall have immunity from any liability, civil or criminal, that might otherwise be incurred or imposed with respect to the making or content of any such report. Further, the initiation of a report in good faith about suspected abuse of a child may not adversely affect any terms or conditions of employment or the work environment of the complainant. If a student initiates a report of suspected abuse of a child by a district employee in good faith, the student will not be disciplined by the Board or any district employee. Intentionally making a false report of child abuse is a Class A violation.

The district shall establish written procedures to provide annual training: 1) for district staff in the prevention and identification of abuse of a child and on the obligations of district employees under ORS 419B.005 as directed by Board policy to report suspected abuse of a child; 2) for parents and legal guardians of students attending district schools on the prevention, identification of abuse of a child and the obligation of district employees to report suspected child abuse of a child, separate from district staff training; and 3) designed to prevent abuse of a child available to students attending district operated schools.
The superintendent shall implement such regulations as are necessary to accomplish the intent of this policy and to comply with state law.

JHFF - Reporting Requirements Regarding Sexual Conduct with Students
Reporting Requirements Regarding Sexual Conduct with Students

This policy applies to all district employees and volunteers.

“Sexual conduct” as defined by Oregon law is any verbal or physical or other conduct that is sexual in nature; directed toward a kindergarten through grade 12 student; unreasonably interferes with a student’s educational performance; and creates an intimidating, hostile or offensive educational environment. The definition for sexual conduct does not include behavior that would be considered child abuse as outlined by Oregon law and district Board policy JHFE and JHFE-AR - Reporting of Suspected Child Abuse.

Any district employee or volunteer who has reasonable cause to believe that another district/school employee or volunteer has engaged in sexual conduct with a student must immediately notify his/her supervisor or the person identified by the district to receive such reports.

When the district receives a report of suspected sexual conduct by a district employee or volunteer, the district shall conduct an investigation.

If, following the investigation, the report is substantiated, the district shall inform the employee/volunteer that the report has been substantiated and provide information regarding any appeal process. If the report of sexual conduct is substantiated the employee/volunteer may be referred to law enforcement officials.

When a report of sexual conduct against the employee is substantiated the employee shall be subject to discipline, up to and including, termination from employment.

A licensed employee whose alleged conduct is substantiated shall be reported to Teacher Standards and Practices Commission.

A volunteer whose alleged sexual conduct is substantiated shall have his/her volunteer badge revoked and may face additional restrictions regarding his/her access to children and/or school district sites.

If the employee or volunteer decides not to appeal the determination or if the determination is sustained after an appeal, a record of the substantiated report shall be placed in the employee’s personnel file. The employee shall be notified that this information may be disclosed to a potential employer.

The district shall post the name and contact information of the person designated to receive sexual conduct reports and the procedures the superintendent/designee shall follow upon receipt of a report. When the superintendent/designee takes action on the report, the person who initiated the report shall be notified.

If a student in good faith initiates a report of suspected sexual conduct by a district employee or volunteer, the student shall not be disciplined for making such a report.
The district shall provide annual training to district employees, volunteers, parents and students regarding the prevention and identification of sexual conduct. At the time of hire of new employees, the district shall provide a description of conduct that may constitute sexual conduct and a description of records subject to disclosure if a sexual conduct report is substantiated.

The district shall follow hiring and reporting procedures as outlined in ORS 339.374 for all district employees.

Concussions and Head Injuries**

The Board acknowledges that concussions and other head injuries are serious and could result in significant brain damage and/or death and should be recognized and managed properly. The Board promotes the safety of students participating in school activities, including but not limited to extracurricular athletic activities and interscholastic sports.

Training and Screening

Prior to the beginning of each school year and/or each sports season, school staff, coaches, athletic/activities coordinators, and volunteers involved in the supervision of athletics or activities must be made aware of this policy, the administrative regulation JHB-AR - Management of Concussions and Head Injuries, and school protocols related to the management of concussions. Athletic and activities staff and supervisory volunteers must participate in annual concussion awareness training that includes recognizing signs and symptoms that may suggest a concussion or other head injury. This training must be consistent with protocols as identified or developed by OSAA and include instruction in documentation required by OSAA’s Concussion Management Protocol. This training must occur prior to the start of the season in which they are acting as a supervisor and be consistent with ORS 336.485.

Prior to the beginning of a student’s first sports/activities season of a school year, all student athletes shall be screened using a baseline screening tool. The impact screening tool shall be used to develop baseline data. This baseline data shall be used when a student sustains a head injury and may be provided to a student’s health care provider when a student sustains a head injury with permission from an eligible student or parent. Students are responsible to self-report any concussions that have occurred in their lifetime when entering or transferring to Newberg High School and/or when completing the baseline screening tool questionnaire.

Students and Parents/Guardians

Prior to the beginning of each sports season, students intending to participate in school-sponsored athletics along with the parents/guardians of these students, shall be provided information including:

1. The risk of concussion and other head injuries and the dangers associated with continuing to participate when a concussion or other head injury is suspected;

2. The signs and symptoms associated with a concussion and other head injuries; and

3. The process and procedures by which a student with concussive injuries are managed and the protocol by which a student is allowed to return to participation in athletics, activities and academics.
Any student intending to participate in any school-sponsored athletics along with his or her parents/guardians, must sign a statement acknowledging that they received and read this information before the student is allowed to participate.

The superintendent shall establish administrative regulations for the management of concussions and head injuries.

OAR 581-022-0421
Management of Concussions and Head Injuries

The Newberg School District is a member of the Oregon School Activities Association (OSAA) and follows direction provided by OSAA with regard to management of concussions and head injuries. In addition to OSAA protocols the district may implement additional protocols, training or requirements for the safety of students.

Training and Screening

Prior to the beginning of each school year and/or each sports season, school staff, coaches, athletic/activities coordinators, and volunteers involved in the supervision of athletics or activities must be made aware of this administrative regulation, Board policy JHB - Concussions and Head Injuries (Board policy JHB), and school protocols related to the management of concussions. Athletic and activities staff and supervisory volunteers must participate in annual concussion awareness training that includes recognizing signs and symptoms that may suggest a concussion or other head injury. This training must be consistent with protocols as identified or developed by OSAA and include instruction in documentation required by OSAA’s Concussion Management Protocol. This training must occur prior to the start of the season in which they are acting as a supervisor and be consistent with ORS 336.485.

Prior to the beginning of a student’s first sports/activities season of a school year, all students shall be screened using a baseline screening tool. The impact screening tool shall be used to develop baseline data. This baseline data may be provided to a student’s healthcare provider when a student sustains a head injury with permission from an eligible student or parent/guardian. Students are responsible to self-report any concussions that have occurred in their lifetime when entering or transferring to Newberg High School and/or when completing the baseline screening tool questionnaire.

Management of Concussions and Other Head Injuries

It is the responsibility of staff members and/or volunteers trained in the signs and symptoms related to concussion or other head injuries to act in accordance with Board policy JHB and with this administrative regulation when the individual recognizes that a student may be exhibiting such signs and symptoms of a concussion.

Any student suspected of having sustained a concussion or head injury during a school activity, including but not limited to participation in interscholastic sports, must be removed from the activity immediately. A student and his/her parents/guardians shall be informed of the need for an evaluation for brain injury and the District/OSAA Return to Play protocol before the student is allowed to return to full participation in school activities, including learning.

No student is permitted to return to the activity or to participate in other school activities on the day of the suspected concussion, whether sustained in school-sponsored or nonschool-sponsored activities.
Any student suspected of having sustained a head injury is prohibited from further participation in any school activities until he/she is evaluated for a concussion. This rule applies whether the injury was sustained in a school-sponsored or nonschool-sponsored activity. If a concussion is suspected, the student must be removed from school activities and evaluated by a licensed health care provider trained in concussion management.

If a concussion is confirmed, a student is not permitted to return to full participation in any school activities until medically cleared to do so by a licensed health care provider trained in concussion management. More than one evaluation by the student’s health care provider may be necessary before the student is cleared for full participation.

Coaches and other staff shall comply with the recommendations regarding the student’s gradual return-to-participation outlined by a student’s treating health care provider who is trained in concussion management. If at any time during the return to full participation in school activities the student exhibits signs and symptoms of a concussion, the student must be removed from the activity and be re-evaluated by the school athletic trainer. The school athletic trainer may refer the student back to a health care provider trained in concussion management.

**Protocol For Return To Play/Participation**

Per ORS 336.485 (b) no member of a school athletic team or activities team involving physical activity shall participate in any athletic event or practice the same day he or she is injured and:

1. Exhibits signs, symptoms or behaviors attributable to a concussion; or
2. Has been diagnosed with a concussion.

The district shall not allow any student to return to participate in an athletic event or training on the days after he/she experiences a concussion unless all of the following conditions have been met:

1. The student no longer exhibits signs, symptoms or behaviors consistent with a concussion, at rest or with exertion;
2. The student is asymptomatic during, or following periods of supervised exercise that is gradually intensifying; and
3. The student receives a written medical release from a licensed health care provider trained in concussion management.

The district may limit a student’s return-to-participation after the student has received a medical release from a licensed health care provider trained in concussion management. “Return to Play” standards and protocol, as determined by OSAA, are listed below:

1. No player shall return to play following a concussion on that same day and the student must be cleared by an appropriate health care provider trained in concussion management before he/she is allowed to return to play or practice.
2. Once a student is cleared to return to play he/she shall proceed with activity in a step-wise fashion to allow their brain to re-adjust to exertion. A student may complete a new step each day. The return to play schedule shall proceed as below following medical clearance:

   Step 1: Light exercise, including walking or riding an exercise bike. No weightlifting.
   Step 2: Running in the gym or on the field. No helmet or other equipment.
   Step 3: Non-contact training drills in specific sports. Weight-training can begin.
   Step 4: Non-contact training drills in full equipment.
   Step 5: Full contact practice or training.
   Step 6: Game play.

3. If symptoms occur or reoccur at any step, a student should cease activity be re-evaluated by the school athletic trainer. A student shall not be allowed to continue to the next step of the return-to-play protocol until symptoms no longer occur. If the symptoms continue to occur or reoccur at a particular step in the return-to-play protocol the school athletic trainer may refer a student back to a health care provider trained in concussion management for further evaluation.

Impact on Learning and Academics

Following a concussion, a student may have difficulty in school. These problems may last from days to months and often involve difficulties with short and long-term memory, concentration and organization.

Teaching and coaching staff should be alert to cognitive and academic issues that may be experienced by a student who has suffered a concussion or other head injury, including but not limited to:

1. Difficulty with concentration;
2. Difficulty with organization;
3. Difficulty with long-term and/or short-term memory;
4. Sensitivity to bright lights and sounds;
5. Difficulty with reading;
6. Difficulty working on a computer/tablet screen or observing visual stimuli (e.g., reading on a computer screen, observing a document/lesson projected or shown on document camera).

All staff shall accommodate a gradual return to full participation in academic courses, as appropriate, based on the recommendation of the student’s health care provider and any appropriate designated school personnel (e.g. 504 coordinator).

Decreasing the stress on the brain early on after a concussion may lessen symptoms and shorten the recovery time. Consideration of accommodations should occur regardless of whether the concussion or
head injury was sustained during school-sponsored or nonschool-sponsored athletics or activities. Students who have experienced a concussion or head injury may be considered for one or more of the following accommodations:

1. Cognitive test;
2. Attend half day at school;
3. Untimed testing;
4. Modification of reading/homework load;
5. Shorten classes and/or frequent breaks;
6. Increased time to complete projects;
7. No significant classroom or standardized testing;
8. Check for return of symptoms when performing activities requiring attention and/or concentration;
9. Request for 504 Plan meeting or other planning meeting to discuss student supports.

Experiencing extended periods of concussion symptoms may also result in emotional or social challenges for students. All staff should be cognizant of these challenges in addition to academic and learning challenges.

**Concussion Policy Management Team**

The superintendent shall appoint a Concussion Policy Management Team to make recommendations related to the implementation of this administrative regulation and Board policy JHB. The Concussion Policy Management Team shall be led by the athletic director and may include a principal and the school athletic trainer. The team may include the district nurse and other school personnel on a case-by-case basis.

The team shall oversee and implement this administrative regulation, Board policy JHB and related protocols for concussions based on the generally accepted protocols. This team shall identify the individuals who shall be trained in concussion signs and symptoms and the activities covered by this administrative regulation.

This administrative regulation and/or related protocols should be reviewed every two years or when generally accepted protocols change.
Threats of Violence

The Board is committed to promoting healthy relationships and a safe learning environment. To this end, student threats of harm to self or others, threatening behavior or acts of violence, including threats to damage school property, shall not be tolerated on district property or at activities under the jurisdiction of the district.

Students shall be instructed that they are expected to inform a teacher, counselor or administrator regarding any information or knowledge relevant to conduct prohibited by this policy. Parents and others shall be encouraged to report such information to the district. Staff shall immediately notify an administrator of any threat, threatening behavior or act of violence he/she has knowledge of, has witnessed or received. All reports shall be promptly investigated.

Students found in violation of this policy shall be subject to discipline up to and including expulsion. A referral to law enforcement shall be made for any infraction involving a student bringing, possessing, concealing or using a weapon or destructive device as prohibited by state and federal law and Board policy.

The principal shall, in determining appropriate disciplinary action, consider:

1. Immediately removing from the classroom setting any student who has threatened to injure self, another person or to damage school property;

2. Placing the student in a setting where the behavior shall receive immediate attention from an administrator, counselor, licensed mental health professional or others;

3. Requiring the student to be evaluated by a licensed mental health professional before allowing the student to return to the classroom setting.

The principal shall ensure notification is provided to:

1. The parent of any student in violation of this policy and the disciplinary action imposed;

2. The parent of a student when the student’s name appears on a targeted list that threatens violence or harm to the students on the list or when threats of violence or harm to the student are made by another student;

3. Any school employee whose name appears on a targeted list threatening violence or harm to the district employee and when threats of violence or harm are made by a student or others toward the employee.
Notification to the above shall be attempted by telephone or in person within 12 hours following discovery of a targeted list or learning of a threat. Regardless, a written follow-up notification shall be sent within 24 hours of discovery of a targeted list or learning of a threat.

The principal shall provide necessary information regarding threats of violence to law enforcement, child protective services and health-care professionals in connection with a health and safety emergency if knowledge of the information is necessary to protect the health and safety of the student or other individuals. Additionally, he/she may provide such information to other school officials, including teachers, within the district or other districts who have a legitimate educational interest in the student(s) consistent with state and federal education records laws and district policies.

The district may enter into contract with licensed mental health professionals to perform student evaluations. Funds for evaluations or other disciplinary options as may be required by law and this policy shall be provided by the district.

The Board directs the superintendent to establish administrative regulations to implements this policy.

2-2
Students shall not bring, possess, conceal or use a weapon on district property or at activities under the jurisdiction of the district or interscholastic activities administered by a voluntary organization.

For purposes of this policy, and as defined by state and federal law, weapon includes:

1. “Dangerous weapon” - any weapon, device, instrument, material or substance, which under the circumstances in which it is used, attempted to be used or threatened to be used is readily capable of causing death or serious physical injury;

2. “Deadly weapon” - any instrument, article or substance specifically designed for and presently capable of causing death or serious physical injury;

3. “Firearm” - any weapon (including a starter gun) which shall or is designed to or may readily be converted to expel a projectile by the action of an explosive, frame or receiver of any such weapon, or any firearm silencer or any destructive device;

4. “Destructive device” - explosive, incendiary or poison gas component or any combination of parts either designed or intended for use in converting any device into any destructive device or from which a destructive device may be readily assembled. A destructive device does not include any device which is designed primarily or redesigned primarily for use as a signaling, pyrotechnic, line-throwing, safety or similar device.

Weapons may also include, but not be limited to, knives, metal knuckles, straight razors, noxious or irritating gases, poisons, unlawful drugs or other items fashioned with the intent to harm, threaten or harass students, staff members, parents or patrons.

Replicas of weapons, fireworks and pocket knives are also prohibited by Board policy. Exceptions to the district’s prohibition may be granted only with prior principal approval for certain curriculum or school-related activities.

Prohibited weapons, replicas of weapons, fireworks and pocket knives are subject to seizure or forfeiture.

In accordance with Oregon law, any employee who has reasonable cause to believe a student or other person has, within the previous 120 days, unlawfully been in possession of a firearm or destructive device as defined by this policy, shall immediately report such violation to an administrator, his/her designee or law enforcement. Employees who report directly to law enforcement shall also immediately inform an administrator. The administrator shall notify the superintendent.
Administrators shall promptly notify the appropriate law enforcement agency of staff reports received and at any other time there is reasonable cause to believe violations have occurred or that a student has been expelled for bringing, possessing, concealing or using a dangerous or deadly weapon, firearm or destructive device. Parents shall be notified of all conduct by their student that violates this policy.

Employees shall promptly report all other conduct prohibited by this policy to an administrator.

Students found to have brought, possessed, concealed or used a dangerous or deadly weapon, firearm or destructive device in violation of this policy or state law shall be expelled for a period of not less than one year. All other violations of the policy shall result in discipline up to and including expulsion and/or referral to law enforcement, as appropriate. The superintendent may, on a case-by-case basis, modify this expulsion requirement. The district may also request suspension of a student’s driving privileges or the right to apply for driving privileges with the Oregon Department of Transportation, as provided by law. Appropriate disciplinary and/or legal action shall be taken against students or others who assist in activity prohibited by this policy.

Sexual Harassment

The Board is committed to the elimination of sexual harassment in district schools and activities. Sexual harassment is strictly prohibited and shall not be tolerated. This includes sexual harassment of students or staff by other students, staff, Board members or third parties. “Third parties” include, but are not limited to, school volunteers, parents, school visitors, service contractors or others engaged in district business, such as employees of businesses or organizations participating in cooperative work programs with the district and others not directly subject to district control at interdistrict and intradistrict athletic competitions or other school events. “District” includes district facilities, district premises and non-district property if the student or employee is at any district-sponsored, district-approved or district-related activity or function, such as field trips or athletic events where students are under the control of the district or where the employee is engaged in district business.

Sexual harassment of students and staff shall include, but is not limited to, unwelcome sexual advances, requests for sexual favors and other verbal, nonverbal or physical conduct of a sexual nature when:

1. The conduct or communication has the purpose or effect of demanding sexual favors in exchange for benefits;

2. Submission to or rejection of the conduct or communication is used as the basis for educational decisions affecting a student or employment or assignment of staff;

3. The conduct or communication is so severe, persistent or pervasive that it has the purpose or effect of unreasonably interfering with a student’s educational performance or with an employee’s ability to perform his/her job; or creates an intimidating, offensive or hostile educational or working environment. Relevant factors to be considered shall include, but not be limited to, did the individual view the environment as hostile; was it reasonable to view the environment as hostile; the nature of the conduct; how often the conduct occurred and how long it continued; age and sex of the complainant; whether the alleged harasser was in a position of power over the student or staff member subjected to the harassment; number of individuals involved; age of the alleged harasser; where the harassment occurred; and other incidents of sexual harassment at the school involving the same or other students or staff.

Examples of sexual harassment may include, but not be limited to, physical touching or graffiti of a sexual nature, displaying or distributing of sexually explicit drawings, pictures and written materials, sexual gestures or obscene jokes, touching oneself sexually or talking about one’s sexuality in front of others or spreading rumors about or rating other students or others as to appearance, sexual activity or performance.

All complaints about behavior that may violate this policy shall be promptly investigated. Any student or employee who has knowledge of conduct in violation of this policy or feels he/she is a victim of sexual harassment must immediately report his/her concerns to the building principal, compliance officer or superintendent, who has overall responsibility for all investigations. A student may also report concerns to a teacher, counselor or school nurse, who shall promptly notify the appropriate district official. The
student and the student’s parents or staff member who initiated the complaint shall be notified of the findings of the investigation and, if appropriate, that remedial action has been taken.

The initiation of a complaint in good faith about behavior that may violate this policy shall not adversely affect the educational assignments or study environment of a student complainant or any terms or conditions of employment or work environment of the staff complainant. There shall be no retaliation by the district against any person who, in good faith, reports, files a complaint or otherwise participates in an investigation or inquiry of sexual harassment.

It is the intent of the Board that appropriate corrective action shall be taken by the district to stop the sexual harassment, prevent its recurrence and address negative consequences. Students in violation of this policy shall be subject to discipline up to and including expulsion and/or counseling or sexual harassment awareness training, as appropriate. The age and maturity of the student(s) involved and other relevant factors shall be considered in determining appropriate action. Employees in violation of this policy shall be subject to discipline, up to and including dismissal and/or additional sexual harassment awareness training, as appropriate. Other individuals whose behavior is found to be in violation of this policy shall be subject to appropriate sanctions as determined and imposed by the superintendent or Board.

Additionally, the district may report individuals in violation of this policy to law enforcement officials. Licensed staff, staff registered with the Teacher Standards and Practices Commission (TSPC) and those participating in practicum programs, as specified by Oregon Administrative Rules, shall be reported to TSPC.

The superintendent shall ensure appropriate periodic sexual harassment awareness training or information is provided to all supervisors, staff and students and that annually, the name and position of district officials responsible for accepting and managing sexual harassment complaints, business phone numbers, addresses or other necessary contact information is readily available. This policy as well as the complaint procedure shall be made available to all students, parents and staff in student/parent and staff handbooks. The district’s policy shall be posted in all district buildings. Such posting shall be by a sign of at least 8 ½" by 11".
